One partner. A complete range.

1979

Established in Kenya

Tracon Ltd manufactures and supplies concrete paving blocks, road and drainage components, structural concrete products and APP membrane waterproofing systems.

QUALITY PRODUCTS

EFFICIENT SERVICE

01
Paving
Rectangular, interlocking and signature shapes

02
Landscape
Cobblestones, grass pavers and vent blocks

03
Infrastructure
Kerbs, channels, culverts and drainage

04
Waterproofing
APP membrane supply and professional fixing

Designed for confident specification

Use this catalogue to compare formats and dimensions, then speak with the Tracon team to confirm colour availability, quantities, installation requirements and final project specifications.

Core paving formats

Reliable modular formats for clean layouts, efficient installation and coordinated colour schemes.

01

Rectangular paving blocks

Regular and coloured finishes

MEDIUM DUTY • 200 × 100 × 60 MM

HEAVY DUTY • 200 × 100 × 80 MM

02

Interlocking paving blocks

Coloured interlocking format

250 × 120 × 80 MM

Colours shown are indicative. Confirm the current finish range and production batch availability before ordering.

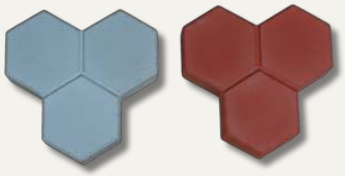

Signature paving shapes

Distinctive profiles designed to create rhythm, movement and memorable surface patterns.

03

Tri-Hex

260 mm dia × 60 mm

04

Venus

260 mm dia × 60 mm

05

Lunar Rocks

60 mm thick

Build a coordinated palette

Combine form and colour to define zones, borders and directional patterns. Physical samples are recommended for final selection.

Landscape & architectural

Products that add pattern, permeability and architectural detail beyond standard paving layouts.

06

Cobblestones

Available in custom colours

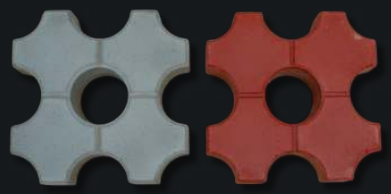

A versatile decorative format for courtyards, paths, circular layouts and landscape features.

07

Grass pavers

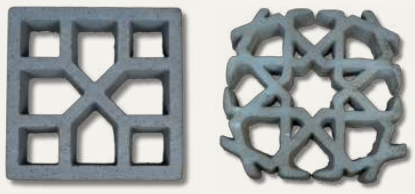

Open-cell concrete paving for landscape-led surface designs.

08

Vent blocks

Architectural concrete screens available in selected designs.

Road & drainage

Concrete components for defined edges, managed surface water and coordinated civil works.

09

Road kerbs

32" × 9.6" × 5"
36.5" × 10" × 5"

Edge restraint & road works

10

Road channels

900 mm length

Surface-water direction

11

Culverts

Specify required size

Drainage crossings

PROJECT NOTE

Final dimensions, loading requirements and installation details should be confirmed against the project specification before ordering.

Structural & utility

Practical concrete components presented with clear formats for faster product comparison.

12

Drainage cover

Different sizes available

CONFIRM QUANTITY & PROJECT SPECIFICATION

13

Paving slab

Terrazzo finish • 450 × 450 mm

CONFIRM QUANTITY & PROJECT SPECIFICATION

14

Solid building blocks

Dimensions available on enquiry

CONFIRM QUANTITY & PROJECT SPECIFICATION

APP waterproofing systems

Material supply and professional fixing for coordinated waterproofing works.

APP MEMBRANE

10 m × 1 m × 4 mm thick

Supply & fix

A complete service combining APP membrane supply with professional installation for concrete flat-roof waterproofing projects.

01 PRODUCT
APP waterproofing membrane

02 FORMAT
10 m × 1 m rolls

03 THICKNESS
4 mm

04 SERVICE
Supply and professional fixing

Product reference

A quick comparison of the catalogue range. Confirm final product selection against project drawings and specifications.

CATEGORY	PRODUCT	FORMAT / SIZE	COMMON APPLICATION
